Digital Version

WHAT IS NASAL ENDOSCOPY?

Nasal endoscopy is a procedure to look at the nasal and sinus passages. It's done with an endoscope.

WHY MIGHT I NEED A NASAL ENDOSCOPY?

The following diagnoses are identified during this procedure.

- Nasal congestion
- Nasal blockage
- Nasal and sinus infection
- Nasal polyps nasal tumors
- Nosebleeds

HOW DO I PREPARE FOR A NASAL ENDOSCOPY?

- Nasal endoscopy is a simple and routineprocedure.
- There is no fasting required for thisprocedure.
- There will be a slight irritation and uncomfortable during the procedure.
- Please tell your doctor if you have any history of allergic reactions, history of Asthma or any bleedingdisorder.
- After the procedure some patient can develop bleeding or fainting. In order to prevent that most of the patients we will advise for observation 10 to 15 minutes to make everythingwell.
- After the nasal endoscopy patient can go for normalactivities.
